GET PAPERWORK DONE QUICKLY

Using a simple form creator, you can build custom form templates for the documents that are frequently used in your business, and make them accessible to your entire team - wherever they are. This helps paperwork get done faster by expediting contracts, agreements, and more.

UNLIMITED FORM TEMPLATES

Create an unlimited number of your own ready-to-go templates for your common documents such as:

- New customer applications
- Lease agreements
- Acceptance of terms
- Safety forms
- Credit applications
- Approval to charge credit cards
- And more

STREAMLINE FORM MANAGEMENT AND COMMUNICATION

MangoForms carefully tracks the forms from the time they are issued until they are fully signed, storing them on the desktop for you to easily retrieve or print. Once forms are ready to go, simply enter an email address to send the document to.

Additionally, MangoForms improves communication between sales, clients, and office staff by:

- Tracking which forms have been signed and which ones are still awaiting a signature.
- Sending gentle reminders to clients to complete the forms.
- Instantly notifying office staff when a customer is finished signing the documents.
- Automatically sending the client a copy of the completed documents.
- Storing signed copies in RMA, linked to the customer account, for easy retrieval.
