MANGO PACKAGE

CREATE MONTHLY PACKAGES WITH FLAT RATE PRICING

- Sign up customers for recurring orders
- Generate more predictable orders with monthly agreements
- "Carry over" unused quantities
- Track available plan quantities
- Reduce number of deliveries

MINIMUM REQUIREMENTS

- RMA Corporate or Enterprise
- RMA 7.0.4R1 and later

Enable customers to pay a flat rate per month for a specific quantity of products with a Mango Package. This module is simple and effective, enabling you to automatically track products consumed, and even automatically bill customers for goods that go over the contracted amount.

HOW IT WORKS

Mango Package can include any number of products that are bundled into a package. For example, for bottled water rentals, a typical package could include: water bottle rental, cooler rental, as well as a purchase of cups (100 cups per bottle). The customer agrees to receive a certain number of bottles and cups each month, and the customer's monthly bill will include the cups delivered, as well as their monthly rental fees.

- **Easily Create Monthly Packages –** Easily set up several plans with different rates within minutes, and start taking orders. Once customers are set up on a plan, it is easy to bill them each month in one easy step. Plans are flexible and can include anywhere from 1 to 99 different products.
- **Automatically Track Available Quantities –** Mango Package automatically tracks which products have been delivered, and any products delivered that exceed the Package limits will be billed at the Package's overage price.
- **Generate Monthly Bills in One Click –** At the beginning of each month you will use the 'Generate Mango Package Plans Billing' function to bill each customer on a Package plan for the monthly cost of the plan and increase their available quantities according to the plan limits.
- **"Carry-Over" Unused Quantities –** Each product in the Package plan can be configured to allow for 'carry-over' of any unused quantities at the end of each month. These quantities will then be added to the following month's available quantities once the plans have been billed.
- **Reduce Errors and Increase Productivity –** Mango Package allows businesses with flat rate billing programs to reduce errors and increase productivity.
